About the Instructors:

Sirese Jacobson
Environmental Scientist
PG Environmental
Denver, CO

Sirese Jacobson is an Environmental Scientist with a MS in Environmental Science from Indiana University. She has two years of experience in National Pollutant Discharge Elimination System permitting and compliance, pretreatment program implementation, concentrated animal feeding operation regulatory compliance inspections, and watershed monitoring. Her primary support areas include regulatory compliance; data collection, analysis, and management; research; and technical writing. Ms. Jacobson has also supported development of total maximum daily load reports and assisted in research efforts for projects regarding water affordability and funding programs, as well as innovative program implementation solutions.

Yatasha Moore
Environmental Engineer
PG Environmental
Nashville, TN

Yatasha Moore is an Environmental Engineer with over 13 years of regulatory experience in the water pollution control field with an emphasis on the federal pretreatment program. She has provided technical support to federal, state, and local government clients. Ms. Moore was previously the State Pretreatment Coordinator for the Tennessee Division of Water Resources. She has also developed and provided training to local pretreatment program and industries and is a member of the KY-TN Water Environment Association's Pretreatment Certification Committee.
