One-2-One Networking Event

(Utility-2-Utility, Utility-2-Private Sector)

We hope you'll take advantage of this unique opportunity to connect with your clean water colleagues. Time has been set aside to facilitate connection among clean water agencies themselves – and between agencies and the private sector community that serves them. Interested in a 15-minute One-2-One connection on specific plans, programs, or practices? Invitation opportunities will be available as the conference approaches.

Evening

7:00 - 10:00

*Busch Stadium
700 Clark Ave.*

An Evening at Busch Stadium

Join us as the St. Louis Cardinals take on the Colorado Rockies for this special baseball event for conference registrants. What is sure to be a great game – along with stadium food and drink – is included with your registration, but please be sure to RSVP using the link provided in your confirmation email.

Tuesday, July 25

Morning

8:30 – 4:00

Regency Ballroom Foyer

Registration

9:00 – 10:00

Sterling Studio 5

Spouse & Guest Lounge

9:00 – 12:00

Regency Ballroom ABC

PLENARY SESSION I

Opening Remarks

Ray Marshall

NACWA President (2016-2017)

Executive Director

Narragansett Bay Commission

Providence, RI

Welcoming Remarks

Brian Hoelscher

Executive Director

Metropolitan St. Louis Sewer District

St. Louis, MO

Keynote Address

Composing Your World

Why do some people just play notes they are handed while others write new music in the world? In his captivating presentation, Kai Kight tackles this question, performs original music and shares the inspiring story of how he became an innovative composer in a field of conformity. Kai inspires audiences to reimagine their resources to see greater possibility, become innovators of their field, and unlock their own creativity.

Kai Kight

Keynote Artist & Violinist

Los Angeles, CA

10:05 - 10:20

Networking Break

Panel Discussion

Utility Peer-to-Peer Learning & Collaboration

Whether benchmarking utility performance, learning from experience or simply borrowing a piece of equipment, peer-to-peer interactions within the clean water community have the potential to transform the industry. NACWA, EPA and other

efforts to bolster peer-to-peer collaborations, learning and engagement will be explored during this panel discussion.

Moderator/Speaker

Andy Kricun
NACWA Board Member
Executive Director/Chief Engineer
Camden County Municipal Utilities Authority
Camden, NJ

Speakers

Jim Horne
Sustainability Program Manager
Office of Wastewater Management
U.S. Environmental Protection Agency
Washington, DC

Andy Richardson
Chairman & Chief Executive Officer
Greeley and Hansen LLC
Chicago, IL

Bill Teichmiller
Chief Executive Officer
EJ Water Cooperative, Inc.
Dieterich, IL

Albuquerque, NM

Adam Lovell
Executive Director
Water Services Association of Australia
Sydney, NSW, Australia

Annual Association Business Meeting

Report of the President
Report of the Treasurer
Election of Directors
Report of the Chief Executive Officer

Closing Remarks

Ray Marshall
NACWA President (2016-2017)

Afternoon

12:00 – 2:00 Lunch on your own

12:00 – 2:00 Board of Directors Meeting
Regency Ballroom D

2:15 – 5:00 **PLENARY SESSION II**

Regency Ballroom ABC *Opening Remarks*

Cathy Gerali
NACWA Officer
District Manager
Metro Wastewater Reclamation District
Denver, CO

Panel Presentation and Roundtable Discussion

Partnering with the Technology Sector for Clean Water

The Utility of the Future initiative has focused renewed attention on the promise of technological advancements to provide better and more cost-effective ways to protect water quality and the environment. Utility leaders do not always think of technology providers as their partners. But, in an increasingly complex and competitive environment, utility managers and technology providers have the potential to make exponential improvements in water quality and efficiency by learning more about one another and better understanding the challenges each face. NACWA teamed up with Affiliate Member XPV Partners to bring you this one-of-a-kind discussion.

CityArchRiver Project – Transforming a St. Louis Landmark

Ryan McClure

Communications Director

Gateway Arch Park Foundation

St. Louis, MO

Panel Presentation

Managing Utility Financial and Economic Health

Clean water utilities remain at the forefront of the nation's infrastructure challenge. Without a significant investment from the federal level, local governments are investing tens of billions of dollars annually to maintain water and wastewater infrastructure. But there are limits to utility financial capability and the debt financing most often used comes with a price. The panel will examine the financial and economic health of cities across the U.S. and feature presentations from several communities working to meet their Clean Water Act obligations without breaking the bank.

Moderator

Michele Pla
Former NACWA President
Vice President
EPC Consultants, Inc.
San Francisco, CA

Panelists

Joseph Kane
Senior Research Analyst and Associate Fellow
Metropolitan Policy Program
The Brookings Institution
Washington, DC

Tim Snoke
Secretary-Treasurer
Metropolitan St. Louis Sewer District
St. Louis, MO

Joe Beach
Chief Financial Officer
Washington Suburban Sanitary Commission
Laurel, MD

Panel Presentation

Unique Partnerships & Innovative Utility Solutions

Whether partnering with a fellow utility, stakeholder, or simply going it alone, today's clean water utilities are looking for new and innovative solutions to their utility management challenges. But utilities are doing more than just addressing current challenges...they are looking for novel approaches and reinventing the way the clean water community does business. This panel will feature utility leaders and case studies from around the country that exemplify this spirit of innovation.

Moderator

Angela Akridge
Chief Engineer

Utility Leadership Conference & 47th Annual Meeting Adjourns

Afternoon
1:00 - 3:30

St. Louis MSD Facility Tour

(Pre-Registration Required & Transportation Provided. Please wear attire and shoes suitable for a construction site. Hard hats and safety vests will be provided)

Our host utility, the Metropolitan St. Louis Sewer District, will provide a tour of its Old North Rain Garden, Harlem-Baden Hebert Stormwater Detention Basin and Coldwater Sanitary Sewer Wet Weather Storage Facility Tank. The rain garden and detention basin highlighted on the tour are part of MSD's strategies to address basement backups, flooding, and to reduce sewer overflows in the combined sewer service area. Completed in 2012, the Old North Rain Garden was constructed during the Pilot phase of the \$100 Million Green Infrastructure Program focused on CSO volume reduction to the Mississippi River. The 13-acre Harlem-Baden Hebert Stormwater Detention Basin was completed in 2017, and is designed to serve approximately 300 acres, storing 21MG of stormwater and benefiting over 1,000 properties, by means of soft sewer separation and over 7 miles of new storm sewer. Still under construction, the Coldwater Sanitary Sewer Wet Weather Storage Facility Tank project consists of construction of an 8 million gallon wire-wound, prestressed concrete tank. This project provides for the elimination of eight constructed SSO's and reduction of building backups in MSD's Separate Sewer System.

Strategic Communications: H2O
