

# Tax-Exempt Municipal Bonds Sustain Connecticut's Water Infrastructure

**\$179.9 million** – The value of tax-exempt municipal bonds communities across Connecticut issued in 2016 to fund improvements to drinking water and wastewater infrastructure.

**\$76.4 million** – Additional debt service costs cities and towns in Connecticut would incur over their payback periods if interest earned on these bonds was fully taxable, **a 25 percent increase**.\*

**\$24.8 million** – Clean Water and Drinking Water State Revolving Fund assistance the federal government provided to Connecticut in 2016. Fully taxing municipal bond interest would cost the state **more than 3 times** the value of this year's SRF assistance.

Affordable investment in Connecticut's water infrastructure should not be a consequence of tax reform.

**AMWA and NACWA urge you to preserve tax-exempt municipal bonds.**

\*Based on Bloomberg data assuming uniform \$50 million projects with 30-year loan maturities and "AA" credit ratings.
